RESUME

Michael Walsh

Full-Stack Developer and Automation / AI Specialist

I am open to Director of Technology and Full-stack developer roles.

Fort Wayne, Indiana [MICHAEL: the email address you want on the resume] mjwalsh.net

LinkedIn GitHub

Summary

[MICHAEL: three or four sentences in your own words: twenty years in software counting freelance work since you were 14, two Director of Technology roles, a hosting company you founded and sold, and what you do now at JWeis. Say plainly that you are open to Director of Technology and full-stack roles.]

Work

October 2024 to present

Full-Stack Developer and Automation / AI Specialist

JWeis Marketing, Remote

[MICHAEL: what you actually do at JWeis now, in your words]

> [MICHAEL: one concrete thing you built or run at JWeis, with a real number if you have one]

October 2022 to October 2024

Recovery and relearning how to live blind

Career break

[MICHAEL: your words. The facts on record: vision problems through 2022, a brain tumor found in October 2022, a craniotomy, sight lost as a complication of the tumor and the surgery, two years spent recovering and relearning how to live blind.]
